Energizing Student Potential
Energy Fair in a Box

Lessons Include

- Six Games from NEED’s Energy Carnival
- **Facts of Light** station and information that includes light bulb comparisons for students and those attending the Energy Fair
- **Energy House** – Lessons for a small group of students to build and demonstrate an energy efficient home
- **Energy Linked In Designs** – Students will create Linked In pages for themselves using career information from all partners in order to learn more about natural gas, electric power, refining, petroleum, nuclear, renewables and more
- **Bumper Stumpers** – A NEED game to unscramble energy “vanity plates”

Other Fair Resources

- **Passport Template** and **Ink Stamps** to stamp passports as attendees tour the Energy Fair
- **$150 in additional funds** to purchase materials for the Fair. (Examples: snacks, art supplies, prizes)
- **Template for Poster** to be used to publicize the Energy Fair
- **Draft Press Release**
