

# 2019 Energy Oscars Ballot

Name: \_\_\_\_\_  
Score: \_\_\_\_\_ /10

## Biggest Energy Consumer in the U.S.

- Residences
- Businesses
- Industry
- Transportation
- Electric Power Plants

## Most Widely Used Fossil Fuel in the U.S.

- Coal
- Natural Gas
- Petroleum
- Propane

## Renewable Energy Source Used the Most in the U.S.

- Wind
- Solar
- Biomass
- Geothermal
- Hydropower

## State that Consumes the Least Energy Per Capita

- Rhode Island
- Wyoming
- Texas
- New York
- Hawaii

## State that Releases the Least CO<sub>2</sub>

- Rhode Island
- Kentucky
- Vermont
- Washington, D.C.
- Arizona

## Leading State for Electric Vehicle Fueling (Power) Stations

- Florida
- California
- Michigan
- Texas

## State that Generates the Most of its Energy from Renewable Sources

- California
- Idaho
- Maine
- Washington, D.C.
- Washington

## Fuel/Energy Source with the Highest Energy Density (Energy Stored per Volume)

- Uranium
- Hydrogen
- Gasoline
- Diesel
- Wood

## Country with the Most Offshore Wind Generation Capacity

- China
- UK
- Germany
- Denmark
- Japan

## Most Widely Used Source of Energy Globally

- Solar
- Uranium
- Coal
- Petroleum
- Hydropower
